Introducing Modulr

As part of our commitment to providing you with innovative solutions to streamline your financial processes, we are thrilled to introduce an exciting new service that will revolutionise the way we handle your payments!

Modulr is integrated with your payroll, invoicing, and bookkeeping software to automate payroll and supplier payments easily, accurately, and on time.

This leads to a more efficient and error-free financial workflow for your business.

How it works

With Modulr, you have access to your own payments Portal, consolidating all your payments in one convenient location.

Simply transfer funds into your portal to cover the cost of your payments, and Modulr does the rest.

1. Process.

Your accountancy firm or payroll provider processes your payroll and accounts as normal. Once complete, the information is sent directly into your Modulr portal.

2. Approve.

Simply log in to view, manage, and approve payments. Or, if you would prefer, you can set up your accountant as an approver.
3. Fund.

Fund your Modulr E-wallet in one single transaction and payments will be released instantly or on your selected future date.

The Modulr Mobile Approvals App

Approve on the move.

You no longer need to be at your desk. Easily fit approvals around your schedule.

Why Modulr for your business?

Save time and maximise efficiency. Remove manual processes and risk. There's no more need for manual exports or file uploads to banks.

Enhanced visibility and control. Fund e-wallets in real time from any bank, set role-based approvals and approve payments from desktop or mobile.

Eliminate costly payroll errors. No one likes to make mistakes, especially when it's employees or suppliers that need paying. Ensure you pay the right amount on time.

Schedule and clear payments instantly. Faster Payments allows you to make payments within 90 seconds, 24/7 including bank holidays and weekends.

Safe and secure. Modulr is an FCA regulated EMI and a direct participant of the Faster Payments scheme. Our platform is built to the highest levels of security and ISO 27001 certified.

A trusted, secure and regulated platform

- Modulr is authorised and regulated by the FCA as an EMI (FRN: 900573). This means we can issue e-money accounts with account numbers and sort codes. As a direct participant of the Faster Payments and Bacs schemes, we hold and settle funds at the Bank of England, providing reliability and security for our users.

- As an authorised and regulated EMI, Modulr is required to keep 100% of our customers' money safeguarded at the Bank of England and totally separate from our own funds. This means that e-money held in Modulr accounts is protected from any risk associated with our insolvency excluding costs deducted by the insolvency administrator, as laid out by the FCA.

- Modulr uses web application firewalls, DDoS protection, threat detection, certificate management, penetration testing and two-factor authentication and is PCI compliant. We take a security first approach to everything—protecting your data, your business and your clients.

- Modulr is certified with ISO 27001, demonstrating our commitment to maintaining the highest standards of information security management to protect data.

- **Dedicated support.** 24/7 from Modulr's friendly and helpful Edinburgh team.

Now, your turn!

Our team can complete the Modulr application on your behalf and manage the onboarding process, ensuring a smooth transition.

If you have any questions about Modulr and how it works then do let us know.
