# Modulr supercharges payments for the travel industry

To restore consumer confidence, travel agents need to offer more attractive services, increase merchant acceptance and reduce costs. With Modulr, you can offer suppliers a wide range of payment options, including virtual cards with Faster Payments capabilities. This means you can attract more customers, improve retention and increase package size.

## 100% merchant acceptance

Offer all payment options from Visa and Mastercard Virtual Cards, ensuring global merchant acceptance.

## Reduce operating costs

Configure bespoke rules, split and sweep transactions, set real-time notifications and automate reconciliation to increase efficiency.

## Attract and retain customers

Use the latest payment collection innovations like open banking and recurring Direct Debits to deliver a better experience to travellers.

## Offer competitive rates

Offer fully integrated solutions to your customers and merchants and provide industry-leading functionality at competitive rates.

### Spotlight: Attract customers with flexible holiday payments

Do you want to offer your customers more flexible ways to pay and spread the cost of their holidays? With Modulr, you can instantly create unique accounts for each customer or transaction. You can receive single or recurring payments using different payment types, providing you with greater visibility of funds and enabling a seamless customer experience.

**Contact us for a customised payment flow to see how Modulr can work for your business.**

### About Modulr

Modulr is the embedded payments platform that helps forward-thinking businesses to move money. We automate your payment flows, embed payments within your platform, and enable you to build new payment products and services. All from one API.

Modulr enables businesses to **directly embed** payments into their platform
